

Middleton Conservation Committee Minutes

January 14, 2020

Meeting was called to order at 1:42pm

Carol Vita, Nicole Rainone, and Kimberly Murphy were present.

December minutes were approved.

Kathleen Blaney requested the conservation to create a short blurb about current events and future goals for the Town Book by next Friday (January 24th). Kimberly will complete and submit. We discussed topics for the town book to include how successful the milfoil treatment was, the vision and goals for tanglewood, and the desire for more community involvement.

We recapped the discussion that took place during the town budget meeting back in December. The town has requested more involvement from us, to build repour and relationship across the different town boards. It was also suggested that we move to an evening meeting. Our consensus was that we should consider making the change in the spring.

A pink slip was found in the mailbox for a bill. We need to check and make sure it was paid.

Meeting was adjourned at 2:55pm
