

## Middleton Conservation Committee Minutes

September 10, 2019

Meeting was called to order at 1:35 pm

Carol Vita, Nicole Rainone, Kimberly Murphy, and Megan Henderson were present.

Megan Henderson came upon the invite from the conservation commission to look at the Tanglewood project with intentions of hiring to develop a forestry plan.

Megan explained how she would develop a two part plan including the inventory of the forest/assessment of overall health of the forest. Second part would include field work. Any timbering or potential action taken would be separate. Her fee for the plan is \$1600. She does not require that up front. She willing to take \$800 up front and \$800 upon completion of the field work and forestry plan.

Megan will send over her proof of insurance and a copy of her contract for the commission to look over and have to present to the board of selectmen before officially hiring her.

Kimberly, Nicole, and Thomas will walk Tanglewood in the next couple weeks to show her the property.

Nicole reached out to Collin from Trout Unlimited about our culverts and is still trying to connect after playing some phone tag.

We briefly discussed the need to get upstairs and organize the conservations piles of paperwork. Need to coordinate with Carol Vita and John Mullen to help sort through important vs non important documents.

No other matters were discussed at this meeting.

Meeting adjourned at 2:35pm
